Greg I often thought of you over the many, many years since we last saw each other in 1983. We had something very special between just the two of us. Thank you. When I was sent an email with your obituary in it my heart sank. Never thought it would hurt so being that we hadn't talked in soo many years. You are happy now...no more pain...no more pain. Rip Greg. I'll always remember you forever and always.

Greg will truly be missed. I taught with Greg for the last couple of years, at Greenbrier. He made such a lasting impression on many. He cared very deeply for his students and was a wonderful teacher. Greg was also a very good friend and he will be missed by many. Heaven gained an angel and we will always have our fond memories. My thoughts and prayers are with his family during this time. I also hope that someone will take as loving care of his baby (dog) as he did!

I have sat with you during the last days of your life. I watched as your health began to fail knowing that you would not be leaving the hospital. I was with you as you took your last breaths. I hope that I was able to make you feel loved and cared for as you came to your end. I loved you and hope that you will have the after life that you desired.
