The Bible says that God created man in his own image and that means we actually look like him in some way. One way in which we look like him is our ability to create and to create in our image as we impart our genetics along with who we are as people.. We not only create in our image physically but we create an eternal soul much like God did with the first man. Charleston has moved on to his eternal life given to him by his parents and their creator to know the treasures that God holds in his presence. In the end love created Charleston and it is with love that he is received by God. Uncle Craig will look forward to reuniting with the eternal Charleston and discover another treasure that love created.
