Dan was a colleague of my father, Professor George W. Webb. Dan and Jane were also my Godparents, and the most faithful Godparents I could have had. They never failed to send a card for my birthday, and even after Jane passed away, Dan sent me a card every year until this year. They were good people, and good friends to our family. We miss them, and we are very sorry for the Vliet family's loss. Sincerely, George W. Webb III Houston, Texas gasgwebb@rice.edu

What a void there is right now in the halls of Christwood without Dan. His familiar strolls delivering menus and greetings along with his cheery smile are no more. He never failed to have some complimentary remark to tell you, even if it was a second or third time I had seen him that day. He made you feel special, when it was Dan who was the "special one". Always remembered Birthdays and Anniversaries of residents, leaving that personal little note. I feel so fortunate to have had a close relationship with Dan. He will be fondly remembered by all of us at Christwood. Now he is with his beloved Jane. Nancy Evans

Dr. Vliet was my favorite engineering professor at Tulane in the early 70's. I think he was every student's favorite. I remember him with great respect, as I am doing this evening - he made that much of an impression on me. I still practice electrical engineering and always appreciate his presence in my life at Tulane fifty years ago. I was so fortunate. Richard J. Moss, PE Denver, CO January 25, 2022

One of the brightest lights of my life has dimmed. In the 1950s, as a newcomer to NOLA and to Tulane Engineering, I was privileged to have Dan, first as a colleague, and then through the years as a treasured friend. In recent years, as I was able to visit NOLA for a week every fall, our annual trip to Abita Springs with Jack Sperry was a highlight of the year. Daniel will be remembered as everybody's friend and, for me, a treasured companion. Mack Gilkeson
