I worked with Dick at UNO for many years. When I was a department chair, he was my graduate coordinator. I always sought out his wise advice and valued opinions. His wisdom and wit made my job easier. He was beloved by his many students. He was a great friend and colleague for almost 30 years. He was one of a kind—even as a twin. I miss him. Louis V Paradise

I don't even know where to start. I've had you on my mind these past several days. There were so many things I wish would have said to you again before now, like simply telling you how much I truly loved you. I've known you almost my entire life, since 15 years old. I'm 53 now. So many beautiful memories. I was blessed to call you dad during 20 of those years. You always remained a huge part of who I am today. The intelligent advice, those crazy stories that always had a meaning at the end. Somehow always you trying to teach me something. You were always teaching and educating those around you. Your humor was one of a kind. Your deep devotion to Ann, Ron & Tim. Later on your world was blessed with 3 beautiful grandkids, Nick, Catherine and Amanda, that lite up your life whenever around them. I could go on and on about you, so many special qualities. Thank you for being such a huge and wonderful part of my life. To the entire Elliott family, including my daughters, I am truly sorry for your loss. We will all miss Gramps, his favorite name, more than anything. I love every one of you more than life itself. Sharon E

I was in several classes that Dr. Elliott taught at UNO in the 1960s. In addition to being a learned scholar, he was an excellent, enthusiastic, and humorous teacher. Prayer for peace and comfort to his family.

You were with me during most of the important and stressful events of my life. I always could count on you for treasured advice delivered with a smile and ending in laughter. You always, always enjoyed my food. You were a joy to cook for during my learning years. I think my favorite part about you was how you were with Nick, Catherine, and Amanda. You enjoyed your role as Gramps, I think most, of all your accomplishments. We certainly enjoyed watching you read, play piano and even sing to the kiddos. You were in the floor with them with new toys. Goodness what fun you were with them. Your IQ was off the charts, but you always made everyone feel ok and good about themselves. You will be missed terribly. I love you Dr. E. I wish I could have made you just one more snack, and told you just how much you meant to me. Jill

What a loss. I have such wonderful memories of the Professor and his remarkable knowledge of the Bible. In my experience, an awful lot of brilliant people are short tempered. Not the Professor. He was a very amiable, patient of other's views and soft spoken person. What a pleasure it was to know him. He will be missed. Jack Greene

Dad, you were always my dad never a father-in-law. From the time Ron and I were together, you grew quickly as my real Dad. I will always treasure our relationship and as it grew, you treated me like a Daughter. You became my Dad and my best friend and our daily talks were loving as well as funny but always what I looked forward to most was how we would talk WITH one another, never AT one another. Every moment with you is a precious memory, all to be remembered and cherished forever. We will be together again, so save me a place next to you. I miss you and will talk to you always. I promise that I will never forget what we shared. save me a place with you and our Father. All my love, Dad, Eve.
